

## **Designer: Alana Skilbeck**

My name is Alana Skilbeck and I did textiles GCSE in year 10 and 11. I designed and made this dress. My original inspiration was a summery dress in the style of the sixties fashion. I made it for young people between the age of 18 and 23 who attend music festivals. I found this project quite challenging to make a dress.

I m really proud of my dress and there is no major improvements I would consider.

Abi Robinson says: "I think Alana's dress is a fantastic achievement, it is beautifully made and the design incredibly original. I love the colours and the floral pattern of the collar is very pretty and goes well with the green of the bodice section.

Well done Alana 😊"

Ella Tolladay Said; "I really like Alana's dress and the colour of the fabric and I think it is really well I made. I think it is very clever how she combined two patterns and the end result is very good and she should be proud of it."
