

## **Designer: Holly Bryce**

My name is holly and for my textiles I designed a children's dress for ages up to 5 to 8. The theme is summer and to be sold in supermarkets. I got my inspiration from what I thought little girls would like and what colour most of them like which is pink. Most young girls go through a princess stage so I linked the summer theme into a style of dress that could go with to themes. I found a lot about children's dresses by the David Charles website which is...

I really like what I have made because it took a lot of time and effort and I'm glad it turned out as well as it did.

"holly's dress was has been made very well and fit the theme very well too." Ashleigh.
