

Designer: Megan Coward

My name is Megan Coward and I am the designer of this bridesmaids dress. When I started thinking about what garment to make, I really liked the idea of a bridesmaids dress. I chose to make the dress for a six year old as it is in-between adult size and toddler sizes, so it wouldn't be too fiddly to make and I wouldn't have needed so much fabric so it would not be too expensive to make. I chose to make a dress with several layers as I think this fits in with the traditional bridesmaid dress. A white tulle overlay gives the dress a Cinderella effect and also contrasts with the purple underneath fabric. I added simple beading embellishment to the neckline of my dress; it makes the dress look pretty whilst keeping the dress simple. I am very pleased with my product, it fulfils the criteria given and it is done to an appropriate standard.
