

# Year 7 Music Homework Tasks

**Purpose:** Music homework is to help pupils reflect and evaluate the learning that has taken place in the lesson, which has consisted of performing, composing and listening. These homework tasks are expected to take no longer than 30 minutes and will be issued once a term. They are sometimes in the form of an exercise, or may require research on the internet.

**Outcomes:** All pupils will be given verbal instructions for completing their homework before it is set. In year 7, most pupils work between levels 3 and 5, with opportunities to work beyond these. At the lower end, pupils will have made some effort to meet the requirements of the task but perhaps have only partially reviewed their work. At level 4, pupils will have reflected more thoughtfully on finding information and presented work in a clear way. At the higher end, pupils are likely to have gone beyond the requirements and taken obvious pride and interest when researching their work as well as presenting quality information relevant to the task.
