

# Destinations data for Millthorpe School

- Every year we are sent destination data from the Department for Education. The data always has a time lag on it – so the latest data we have is for the cohort of students who left in June 2019.
- The data tells us which education or apprenticeship setting each student moved on to once they left Millthorpe. We can use this information to evaluate our careers programme – are we giving the right advice to our students about their next steps?

	Number	Percentage
Number of pupils	201	
<b>Pupils staying in further education for at least two terms</b>	185	92%
Of those 185 students, those who went to an FE college or other FE provider (York College, Askham Bryan College or similar)	126	63%
Of those 185 students, those who went to a school sixth form	58	29%
Of those 185 students, those who went to another education destination	1	SP
<b>Pupils staying in apprenticeships for at least six months</b>	4	2%
<b>Pupils in education or apprenticeships which were not sustained for two terms</b>	8	4%
<b>Pupils not captured in education or apprenticeships (destination unknown)</b>	4	2%
