

RAISEonline 2013 Summary Report
Millthorpe School

Unique Reference Number (URN)	121706
DfE Number	8164229
Local Authority	York

Based on the following datasets for 2013:-
Key Stage 4: unvalidated data

Production date : 28 November 2013

IMPORTANT

The aim of the summary report is to help you see how effectively a school is performing in terms of the achievement of its pupils. The report is made available to schools to help with their self-evaluation and planning to raise standards, and is used by inspectors to generate questions and hypotheses to explore during an inspection.

The RAISEonline library contains further information and guidance. To view all available documents, we recommend that you log into the system prior to accessing the library:

<https://www.raiseonline.org/documentlibrary/ViewDocumentLibrary.aspx>

* Details of developments and changes to data can be found in the '2013 RAISEonline newsletter, July 2013' pdf document in the 'Newsletters' folder. These changes include the cessation of the calculation of Key Stage 4 English and mathematics with equivalences, and the renaming and expansion of the closing the gap section (formerly known as narrowing the gap).

* The categorisation of pupils eligible for free school meals (FSM) changed in 2012. Pupils are classed as FSM if they have been eligible for and claiming FSM at any time in the last 6 years.

* The methodology used to calculate RAISEonline measures can be found in the 'How Ofsted and DfE analyse your data' folder.

* National progression tables may be found in the 'Transition matrices - Target setting' section of the library.

* Details of the changes to the table 'Attainment Summary of GCSE Results for All pupils' for subjects can be found in the RAISEonline library and latest news accompanying the release of this data.

Information regarding the qualifications which will count in 2014 may be found in the 'Further details of the revised performance tables qualifications and discount rules from 2014' folder in the library.

The 'FAQ' section of RAISEonline covers a wide range of common questions. Please click on the FAQ picture that appears to the right of the screen immediately after logging in. Further information is also available within each interactive report, by pressing the 'Help?' button near the top right of the screen.

We also recommend that you regularly read RAISEonline Latest news to keep up to date.

The Key Stage 4 unvalidated data do not reflect the outcome of amendments requested by schools during the annual performance tables' data checking exercise run between Monday 23 September 2013 and Monday 7 October 2013. Accepted amendments from the checking exercise will be included in the DfE Key Stage 4 performance tables being published in January 2014 and the subsequent release of validated data in RAISEonline. 2013 Absence and Exclusions data are available in this report.

We are not able to make ad hoc changes to published data in RAISEonline. The website provides interactive reports, accessed via the 'Tree view' tab, which allow exploration of pupil level data that underlie the measures contained in the summary report and a range of other analyses. If you think your measures are wrong, please first check these underlying pupil-list reports. After this step, if you think there is an error in the measures due to a miscalculation rather than incorrect data, please use the 'Contact us' facility on RAISEonline <https://www.raiseonline.org> or email enquiries@ofsted.gov.uk.

Changes to the calculation of Key Stage 4 English and mathematics with equivalences

In previous years, RAISEonline displayed English and mathematics threshold and average point scores (APS) data for English baccalaureate, basics and with equivalences. From 2013 RAISEonline will display English and mathematics data based only on those qualifications which meet the criteria for the English baccalaureate and basics measures. This will ensure consistency with the data displayed in school performance tables. Data for previous years will still be available.

The 'school's own data' section of RAISEonline contains a copy of the underlying data that a school's RAISEonline administrator may amend. You will be able to see if analyses for your school would change and use these in discussions with school improvement partners and inspectors. Note that the changes will apply to the school's own copy of the data only; the published data in RAISEonline will remain unaffected.

Green and blue highlighting is used to demonstrate a statistically significant difference between the school data for a particular group and national data for the same group. This does not necessarily correlate with being educationally significant. The performance of specific groups should always be compared with the performance of all pupils nationally as well as the particular group nationally.

The summary report is divided into the following sections:

1. Context
2. Absence and Exclusions
3. Prior Attainment
4. Attainment Measures
5. Progress Measures
 - Value Added
 - Expected Progress
6. Closing the Gap

Important Information for Governors

Her Majesty's Chief Inspector has made it clear that effective governance is an intrinsic part of good leadership. An increasingly autonomous school system needs informed governors who know their schools well and hold leaders to account for the achievement of all pupils in their school, including the most able and those who are disadvantaged.

Inspectors will meet with as many governors during an inspection as is possible. They will want to know how well governing bodies use a range of information and evaluate the performance of the school, particularly in terms of pupils' progress, the leadership of teaching and the management of staff. In February 2013 Ofsted launched the data dashboard to help governors understand essential headline school performance data. Inspectors will want to know how governors are using this, and other information such as RAISEonline, to ask challenging questions which help the school to sustain high performance or to improve. The School Inspection Handbook and the subsidiary guidance contain further information about how inspectors evaluate the effectiveness of governance.

To support governors further, RAISEonline has been changed. Tables that governors might find particularly useful to look at, in addition to the data dashboard, are highlighted by the letter G in the top right corner of selected reports and tables in the summary report.

The reports below have been selected as key starting points for governors but the full suite of reports within RAISEonline should be used when analysing a school's data.

Background Information

* Basic characteristics of your school - displays information on the context of the school, giving governors information about the pupils within the school, and their characteristics, compared with other schools nationally.

* Prior attainment of pupils at Key Stage 4 - allows governors to compare the average prior attainment of pupils within the school to the national average. It shows the Key Stage 2 results of pupils currently studying in Key Stages 3 and 4 alongside the national average for each year group. Prior attainment is the best indicator of future performance.

Absence and Exclusions

* School Level Absence and Exclusions - this table allows the analysis of figures over time and comparison against national averages. This allows governors to examine absence levels and question what action has been taken by the school to improve attendance. Governors can also consider whether levels of exclusion seem appropriate. The next table allows further examination of figures for different pupil groups. This data is usually updated at the end of the autumn term or early in the spring term.

Performance Indicators

There are four different indicators within RAISEonline, relating to attainment and progress, each of which can be used by governors when exploring the school's performance:

Attainment Measures

Threshold data

Threshold data answers the question 'What proportion of pupils have reached a particular standard?'

Threshold reports at Key Stage 4 may analyse attainment of GCSEs only; or all qualifications; or by English Baccalaureate subject area.

The following reports display threshold data for pupil groups within the school, highlighting where its data is statistically significantly different from the national average. This enables governors to ask questions about differences in the performance of pupil groups both within the school and compared with national levels of performance.

Key Stage 4

- * Percentage of candidates achieving 5 or more A*-C (including English and mathematics) at GCSE and equivalent

- * English Baccalaureate subject areas thresholds by pupil groups

- * Attainment, summary of full GCSE results for all pupils, 2013

- * Attainment, grade distributions by time of entry

It is important to note that, at Key Stage 4, the percentage of pupils attaining 5+A*-C including English and mathematics qualifications is an indicator used in the floor standards.

Average Point Score (APS)

This is most useful when asking the question 'What is the overall attainment of all pupils?'

The following report enables governors to compare pupils' average point scores across their best eight GCSE or equivalent qualifications with national averages over the past three years.

Key Stage 4

- * Attainment, average capped point score, best 8 subjects

Progress Indicators

Expected/more than expected progress

Expected/more than expected progress data helps to answer questions such as 'What proportion of pupils have made the expected level (or more) of progress from Key Stage 2 to Key Stage 4 in English and mathematics?'

These reports allow governors to explore progress data for the school by pupil group and to see if there is any difference in the amount of progress made by various ability groups within the school. The expected progress summary report highlights where the school's data is statistically significantly different from the national average.

Expected progress data in English and mathematics is an indicator used in the Key Stage 4 floor standard.

Key Stage 4

- * Key Stage 2 to Key Stage 4 performance – percentage making expected progress, school and national

- * Expected Progress in English Key Stage 2 to Key Stage 4, sublevel variation

- * Expected Progress in mathematics Key Stage 2 to Key Stage 4, sublevel variation

The reports below are similar to those above, but show the performance of pupils who are eligible for free school meals (FSM), and children looked after (CLA) alongside that of non-FSM/CLA pupils both within the school and nationally.

* Expected Progress in English Key Stage 2 to Key Stage 4 for FSM/CLA pupils, sublevel variation

* Expected Progress in mathematics Key Stage 2 to Key Stage 4 for FSM/CLA pupils, sublevel variation

Value Added (VA)

VA is most useful when asking the question 'How does the overall progress of pupils compare with progress for pupils with similar prior attainment nationally?'

Key Stage 2–4 VA is a relative measure of progress between Key Stage 2 and Key Stage 4. It measures the amount of progress each pupil has made from their Key Stage 2 starting point. It then compares their progress with all other pupils nationally of similar prior attainment to produce a 'score'. Pupil scores are aggregated to school level, where they are centred around 1000.

(For more information on how VA is calculated please see the RAISEonline library)

The following reports allow governors to explore VA progress by subject and pupil group alongside national data. Governors are also able to explore progress by individuals when viewing the VA scatter-plot.

Key Stage 4

* Key Stage 2 to Key Stage 4 value added summary report

* Key Stage 2 to Key Stage 4 value added analysis by pupil (FSM/CLA)

Closing the Gaps

The following reports enable governors to compare the level of their FSM and CLA performance to the national level of non-FSM/CLA performance for all indicators.

* Closing the Gaps for free school meals and children looked after pupil groups

* Closing the Gaps trend – free school meals and children looked after

Context

Table 1.1.1: Basic Characteristics of your school (PriSec2.1)

This shows some key indicators for your school, together with national averages for maintained mainstream Secondary schools. The information is based on the January School Census return. The Quintile graphs display the indicators for the current year only. These figures are divided into five intervals, each containing approximately 20% of schools. The interval boundaries are shown below the line, and your school's position in the distribution is indicated by a shaded box.

	2011	2012	2013	20th percentile	40th percentile	60th percentile	80th percentile
Number on roll

Absence and exclusions

School Level Absence and Exclusions - 3 Year Trend (Trend_1)

Table 2.1.1

Absence indicators are based on 2 terms of data (autumn and spring) for mainstream schools and 2.5 terms of data (autumn, spring and summer first half-term) in special schools. Exclusions indicators are based on 3 terms of data. From 2012, only persistent absentee data - absent for 15% or more sessions is published.

	2011			2012			2013		
	School	National average for secondary schools	Median trendline for school's FSM level	School	National average for secondary schools	Median trendline for school's FSM* level	School	National average for secondary schools	Median trendline for school's FSM* level
Absence									
% Persistent absentees- absent for 15% or more sessions	7.0	9.6	7.8	8.0	6.9	5.9	7.2	6.6	5.7
% Persistent absentees- absent for 20% or more sessions	4.1	4.8	3.6	-	-	-	-	-	-
% of sessions missed due to Overall Absence	5.79	6.55	5.82	6.2	5.7	5.5	6.0	5.9	5.6
Exclusions									
Permanent exclusions as a percentage of the pupil group	0.00	0.14	-	0.00	0.14	-	-	-	-
% enrolments with 1 or more fixed term exclusions	3.51	4.68	-	3.71	4.34	-	-	-	-
Fixed term exclusions as a percentage of the pupil group	4.42	8.55	-	6.80	7.98	-	-	-	-

From 2012, '% of sessions missed due to overall absence' is displayed to one decimal place, to align the presentation of absence measures.

Absence and exclusions

Table 2.1.2: School Level Absence by pupil groups (Abs_2)

These data relate to the 2013 academic year. This is the most recent year for which we have a full data set, since the School Census collects data in arrears.

Absence indicators are based on 2 terms data (autumn and spring) for mainstream schools and 2.5 terms of data (autumn, spring and summer first half-term) for special schools. Exclusions indicators are based on 3 terms of data. For consistency, the national comparator for secondary schools is also presented.

	% of sessions missed due to Overall Absence		% Persistent absentees - absent for 15% or more sessions

Unclassified - Information Not Obtained	0.00	12.27	0.00	6.73	0.00	0.36

Data on permanent exclusions is shown as provided by schools as part of the schools census. It may not reflect changes made as part of a LA checking exercise, nor match figures published as part of the statistical first release.

Significance tests are not supplied with this data. Comparisons should be made with all pupils nationally and not solely with the same group nationally.

Prior Attainment

Table 3.1.1: The prior attainment of pupils at Key Stage 3 and Key Stage 4 (PriorKS3_4)

The tables below show the prior attainment in terms of Key Stage 2 average fine points score, of pupils studying at Key Stage 4 and Key Stage 3 in your school in 2012/13. This has been broken down by year group. The tables also show the national picture for maintained mainstream schools. From 2011, teacher assessments have been included which will align with the methodology used for 2011 value added and expected progress. When interpreting the tables the level of coverage should be taken into account.

Average fine points score at KS2

NC Year starting Sept 2012	School	National	Difference	Sig	% Coverage
Year 11	28.7	27.9	0.8	Sig+	98.5
Year 10	28.4	27.8	0.6		94.5
Year 9	27.8	27.6	0.2		93.9
Year 8	28.2	27.5	0.7	Sig+	93.2
Year 7	28.7	28.4	0.3		99.0

% by Prior Attainment Band

	School			National		
	Low	Middle	High	Low	Middle	High
Year 11	7.8	54.2	38.0	14.7	52.5	32.8
Year 10	12.3	52.0	35.7	15.0	52.5	32.5
Year 9	16.7	44.6	38.7	16.5	49.0	34.5
Year 8	15.9	44.5	39.6	17.7	51.6	30.7
Year 7	9.9	47.6	42.4	13.8	48.0	38.2

Attainment at Key Stage 4

Chart 4.1.1 and Table 4.1.2: Percentage of candidates achieving 5 or more A* to C (including English and mathematics) at GCSE and Equivalent (KS4.3C)

Statistical significance tests have been performed on the data using a 95% confidence interval. Where the school value differs significantly from the corresponding national value for this group, sig+ or sig- is shown. Where a school figure is significantly above or below that of the previous year an up or down arrow is displayed to the right of the figure.

Percentage of pupils achieving 5 or more A* to C (inc English and mathematics) at GCSE and equivalent

% achieving 5 or more A* to C (inc English and Maths)	2011	2012	2013	
Cohort	204	206	194	
School	59	53	70	↑
National	57	58	60	
Difference	2	-5	10	
Significance			Sig+

Attainment at Key Stage 4

Table 4.1.13: Attainment, Percentage Achieving Thresholds at GCSE and equivalent by pupil Characteristics - 2013 (KS4.22)

Percentage of candidates achieving thresholds at GCSE and equivalent

The Basics are the percentage of pupils achieving C grade or above in both English and mathematics GCSEs, or accredited iGCSEs. The Basics indicator for mathematics is identical to that for Ebacc. Statistical significance tests have not been performed on this data.

Percentage of pupils achieving each threshold

 School subject area attainment is significantly above the national average for this group

 School subject area attainment is significantly below the national average for this group

This report may be switched from English Baccalaureate to Basics using the options menu choices in the interactive system.

The Guide to Calculations gives a link to DfE's specific qualification list. This may be found in the Library, under 'How Ofsted and DfE analyse your data'.

Attainment at Key Stage 4

Chart 4.1.16 and Table 4.1.17: Attainment, grade distributions by time of entry 2013 (KS4.EENT)

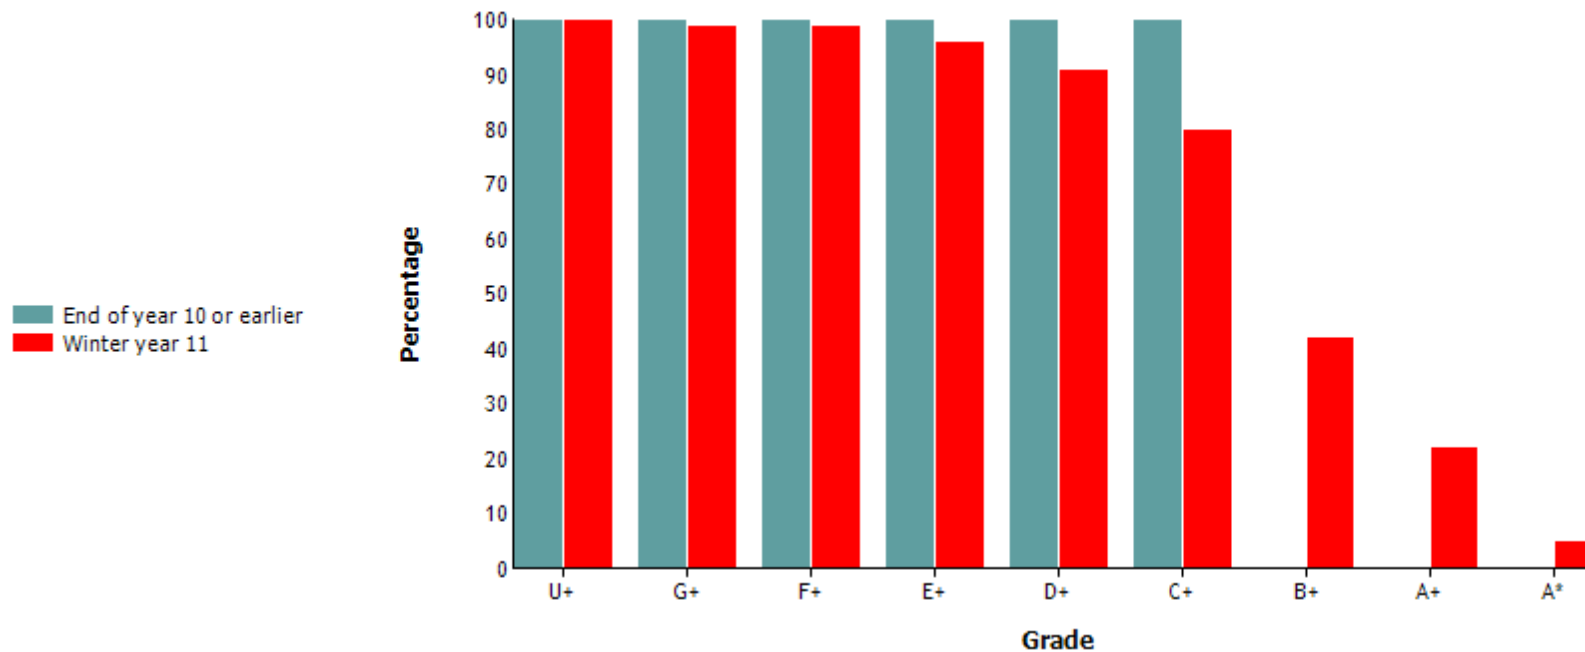

Key Stage 4 mathematics (EBACC)

Cumulative grade distribution

This report provides analysis of pupils' best Key Stage 4 mathematics (EBACC) attainment by their earliest point of entry, regardless of whether they subsequently achieved a higher grade. This is intended to show the impact that entering pupils early has on their mathematics attainment by the end of Key Stage 4.

The school and national mathematics (EBACC) grade distribution for all pupils is shown for comparison.

Cumulative percentage achieving at least each grade at Key Stage 4 in mathematics (EBACC) by earliest entry point

Attainment at Key Stage 4

Earliest mathematics (EBACC) point of entry	Cohort	Entries	Percentage distribution									
			U+	G+	F+	E+	D+	C+	B+	A+	A*	
End of year 10 or earlier	School	194	1	100	100	100	100	100	100	0	0	0
Winter year 11	School	194	193	100	99	99	96	91	80	42	22	5
Summer year 11	School	194	-	-	-	-	-	-	-	-	-	-
Key Stage 4 highest grade, all pupils	School	194	194	100	99	99	96	91	80	42	22	5
	National	578,035	578,035	100	96	92	87	81	70	38	18	6

Please refer to the methodology library for a worked example for a school.

The Key Stage 4 highest grade includes pupils who were not entered.

Key

 School performance is significantly higher than the national VA figure for this group

 School performance is significantly below the national VA figure for this group

From 2012, the methodology for calculating the pupil group confidence interval changed to take into account the range of scores for all pupils nationally rather than the range of scores in your school. Full details of the methodology used for the Value Added measure can be found in the Library.

Progress Measures Value Added

Table 5.1.5: Key Stage 2 to Key Stage 4 value added Summary Report by Ebacc subject areas (KS24.VAExp_EB)

Statistical significance tests have been performed on the data using a 95% confidence interval and, where the school value differs significantly from the corresponding national values for this group, sig+ or sig- is shown.

Key

 School performance is significantly higher than the national VA figure for this group

 School performance is significantly below the national VA figure for this group

The proportion achieving A*-C includes the entire cohort for the English Baccalaureate, English and mathematics. For humanities, science and languages it includes only the pupils who entered. Similarly, value added calculations include the entire cohort for English and mathematics if they have key stage 2 prior attainment data. The humanities, science and languages subject areas include only the pupils entered with key stage 2 prior attainment data. Science takes the average grade of the two eligible science qualifications. Humanities and Languages subject areas take the best score of all eligible qualifications. From 2012, the methodology for calculating the pupil group confidence interval changed to take into account the range of scores for all pupils nationally rather than the range of scores in your school. Full details of the methodology used for the Value Added measure can be found in the Library.

Expected Progress - English

Table 5.2.1: Expected Progress in English Key Stage 2 to Key Stage 4 (KS4.EPR)

This table shows the number of pupils attaining each English (English GCSE or English language and English literature) Key Stage 4 grade and their corresponding English Key Stage 2 prior attainment. These figures should be compared with the national figures provided in the Transition Matrices held in the library on the RAISEonline website.

Number of Pupils		Key Stage 4 English grade										Total No. of Pupils	Number Achieving Expected Progress	School % Achieving Expected Progress	National % Achieving Expected Progress	Number Achieving More Than Expected Progress	School % Achieving More Than Expected Progress	National % Achieving More Than Expected Progress
		no KS4 result	U	G	F	E	D	C	B	A	A*

Summary												191	149	78%	70%	69	36%	32%	

Total Cohort	194
---------------------	-----

Key

represents pupils making more than expected progress
represents pupils making expected progress
represents pupils making less than expected progress
indicates pupils whose progress could not be determined and who have therefore been excluded from the school calculation. These pupils are included in the figure for the total cohort

Full details of the methodology used can be found in the Library.

Expected Progress English, mathematics

Table 5.4.1: Key Stage 2 to Key Stage 4 performance - percentage making expected progress, School and National (KS4.EPRS)

The table indicates the proportion of pupils making expected progress between KS2 and KS4. Statistical significance tests have been performed on the data.

A dash means that no significance test has been carried out. A blank space means that a significance test has been carried out and the result for school or group is not significantly different from the national average.

Closing the Gaps at Key Stage 4

Table 6.1.1: Closing the Gaps - Free School Meals and Children Looked After (KS4.CTG)

This report aims to provide schools with an overview of the attainment and progress of pupils in either group of Children Looked After or Free School Meals in the last 6 years.

School Context

	Year 7	Year 8	Year 9	Year 10	Year 11
Number on roll	193	176	198	181	195
%FSM*	17.6	23.3	17.2	19.9	14.4
Children Looked After	1	2	0	3	2

Please note that the above data was sourced from the schools January 2013 census therefore the year groups displayed above refer to the academic year 2012/13.

Key Stage 2 to Key Stage 4 value added: CLA or FSM*

Within School Gap		-13				-32				-32				-7		

This report enables schools to compare the level of their CLA/FSM pupils' performance to the national level of non-(CLA or FSM) performance with the intention of encouraging schools to set more ambitious achievement goals for their CLA/FSM pupils. However, this report is also intended to encourage schools to further explore the performance of their CLA/FSM pupils by using the full range of data available in RAISEonline.

Closing the Gaps at Key Stage 4

Table 6.1.2: Closing the Gaps Trend - Free School Meals and Children Looked After (KS4.CTGT)

This section displays trend data for indicators linked to floor standards
